8. Provide a brief summary and justification for this investment, including a brief description of how this closes in part or in whole an identified agency performance gap; this description may include links to relevant information which should include relevant GAO reports, and links to relevant findings of independent audits.

The Medical IT Support investment includes all recurring operations and maintenance and disposal activities and resources for information systems, computing, and network infrastructure that support the delivery of medical care at the Veterans Health Administrations (VHA) 153 medical centers, over 755 community based outpatient clinics, 5 mobile outpatient clinics, 232 readjustment counseling vet centers, 135 nursing homes, 47 domiciliaries, the Consolidated Mail-Out Pharmacy, Health Resource Center, and National Center for Patient Safety. This investment improves the direct delivery of quality health care by providing a secure, reliable infrastructure between all VA medical facilities. In addition, it improves access, quality and timeliness of health care delivery to the veteran by ensuring that the infrastructure meets the technical standards, established service levels and interoperability with external agencies by providing a transport platform used to share information between VA IT Systems and other Federal IT Systems. This project improves access to information, expertise, and knowledge for VHA employees, volunteers, and partners by supporting online collaboration and information sharing. It also contributes to cost avoidance by using centralized purchasing, consolidating contracts, and the use of performance based contracting. The Medical IT Support Portfolio uses an information technology that improves internal controls and business processes by reducing processing time and increasing quality. This investment supports delivery of health care by managing the timely technology refresh to meet the changing information technology standards and ensures the integrity, quality, availability, and security of the physical IT infrastructure. Funding of this investment is required to continue maintaining the systems and infrastructure used to deliver essential medical services, VHA business operations, and ensure timely delivery of high quality service to veterans.
